Cleaning and Pressing at Home—Make Over Hats and Save Milliner Bills—A Clever Woman Can Save Money—The Ideal Husband—Headaches—Lavender Lotion—Spice Cake—Oatmeal Cookies—Formula For Stenciling.

CLEANING AND PRESSING.

Having three boys in the family, it seemed rather expensive to hire their suits cleaned and pressed; accordingly, their sister decided to see what she could do, and she has become quite an expert at the business. In two or three hours she can clean and press a suit quite as well as the professional cleaner. The boys are quite willing to give her 50 cents for the same work which the tailor would charge them \$1 for.

One can get a cleaning preparation at almost any drug store, but she prefers making her own, for which she has an excellent formula. A soapy lukewarm water with some gasoline to follow and thorough rinsing after will also be found effective.

The clothes must first be thoroughly brushed, removing all traces of dirt and dirt possible before undertaking the more difficult part. She then lays the collar or soiled part flat upon the table or press board, takes a small, stiff 5 cent brush (or an old toothbrush will do nicely), dips it in the cleaning preparation, and brushes the soiled place thoroughly, or until the soil seems to disappear; then dip the brush lightly in clean, soft water and brush gently again. After all soiled places are cleaned, expose the garment to the air and allow it to become nearly dry and then proceed with the pressing.

Fold the clothes, especially the trousers, in the original creases as nearly as possible, dampen slightly with a sponge or cloth, cover with a dry cloth and press with a hot flatiron. Of course, a regular tailor's iron is preferable, but she uses the ordinary flatiron with satisfactory results. It must not be too hot, as serge suits will sometimes split along the crease if too hot an iron is used, but it must be hot enough to press the crease in nicely. With a tailor's iron one doesn't need to use quite so much pressure in applying the iron. If it is a dark suit, one should use a dark cloth under the iron, thus avoiding lint.

She uses the same method with her own suit, skirts and jackets.

She retires her old hats and sometimes her friends' hats to look like new. Milliners object to using trimmings that have previously been worn, and many times women are obliged to look out of date because they can't afford a new hat. This woman, with her artistic touch here and there, can fashion old straws and frames into the latest creations and save many dollars. It is surprising to note the joy in one's expression,

she tells me when she has used scraps and old stuff long discarded and made a really beautiful hat. Try this plan yourself.

THE IDEAL HUSBAND.

"Do you know what's the matter with you?" inquired Mrs. Titter. "You spend so much time henpecking Bumpweather and bossing him around you think you can henpeck the whole universe. I think that, sometimes, you even peek at me a little. My feathers feel queer. You ruffle them."

"Keep your old waffles, stingy," said Mrs. Bumpweather. "I wouldn't have him. I bet he's a sissy and says he loves opera and passes away at the sight of a mouse or can't bear Schopenhauer. There's something the matter with him, you can depend upon it. The kind of a man who is the ideal husband is the one who is manly and fine when it comes to standing between you and a mean old world. He guards you from care and trouble, and he tries to save you from worries. He keeps his own hurts secret—and wrestles with the debts when you don't know about it. Yet, with all this manliness, he must be effeminate, too, passing just that tender touch of the gentle effeminate spirit. I can't quite explain it, but it gives him the faculty of knowing when you want a quiet moment all by yourself, with the shade down and the house quiet. If you have a headache he puts the cold cloth on gently. He doesn't fill a large towel with a ton of ice and then slap it down hard so it won't do the most good—that is the man way of doing things. I like a big, strong man behind whom I can hide from worry and care, and big and strong enough to haveillery, moist eyes when I sob out some little heart grief of my own."

"I presume Bumpweather is all that," said Mrs. Titter. "Not quite, not yet, but he is learning, and I am teaching," replied Mrs. Bumpweather.

And that, after all, is what matrimony amounts to for the most of us—a tender effort to understand them well enough that we may try to make them understand us.

OATMEAL COOKIES.

Cream two-thirds cup of butter (or shortening) scant, with one cup of sugar. Add two well beaten eggs, sift three-quarters teaspoon of soda into two scant cups of flour, one-half teaspoon of salt, one good sized teaspoon cinnamon. To this mixture add two cups uncooked oatmeal and one cup raisins. Soak the raisins in hot

water a few minutes before using. Flatten out in the tin with a spoon, and bake in a moderate oven.

FORMULA FOR STENCILING.

Dainty curtains can be made of cheese cloth or scrim, stenciled and finished around edges with ball fringe. The following is a formula for a medium used when using oil paints to prevent fading when washed: Mix the paint to the medium until you get the desired color. Ten drops of citronella, fifteen drops of carbolic acid, one-half ounce of oil of vaseline, one-half ounce of oil of turpentine.

HEADACHES.

There must be some cause for your constant headaches. Are you sure it is not your eyes? I would advise you to consult an oculist in regard to it and have your eyes examined. Do not let it go any longer. One cannot be too careful in regard to the eyes. You may have strained them some time and if they are taken in time it may save you a great deal of trouble.

Do not wear tight clothing or shoes. Both are a fruitful source of headaches.

LAVENDER LOTION.

Here is a recipe for a lavender lotion which is much better and safer for softening the bathing water, and if you use it you need not use any other agent. Four ounces of alcohol, one-half ounce of ammonia, one dram oil of lavender.

HAUL DOWN THE MEXICAN FLAGS

Brownsville, Texas, Sept. 17.—United States soldiers yesterday hauled down several Mexican flags at a Mexican Independence day celebration, about forty miles from here, on the American side of the border. The Mexicans then raised an American flag. Residents of Pharr, Tex., also pulled down Mexican flags until the Mexicans raised one American flag.

Under Arrest for Incident.

Douglas Ariz., Sept. 17.—Clarence Reese, a constable of Pirtleville, Ariz., and Young Davis, a companion, were under arrest today in connection with the Mexican flag incident at Pirtleville yesterday when the Americans pulled down a Mexican Independence day emblem and were threatened with mob violence. The men made their escape from 250 infuriated Mexicans and later were taken into custody on a warrant charging them with malicious mischief.

WOODMEN OF THE WORLD ENTERTAIN

Woodmen of the World will formally open their new lodge quarters in the Fraternity block by a housewarming to be held on Thursday and Friday of this week. Members of the order and their friends will participate in the various events upon the program of entertainment.

On Thursday afternoon the reception to members and visitors will be held. There will be a number of vocal and instrumental selections. In the evening, at an open meeting, Judge J. A. Howell will give an address on "Fraternity."

HARRIMAN LINE

CONFERENCE ENDS
Salt Lake, Sept. 17.—The conference of the heads of the Harriman lines ended last night. So successful was the "get-acquainted" meeting that it is considered probable that similar sessions will be held frequently in the future. No doubt, according to some of the road chiefs who attended this meeting, many of them will be held in Salt Lake on account of its central location.

At 8:30 o'clock last night part of the railroad officials, including the heads of the Union Pacific and Short Line, left on a special train for Buhl, Idaho. Arriving there this morning, they will make the return trip in daylight, stopping off for inspection of the Twin Falls and other important farming districts along the route. Friday morning they will leave here several days investigating conditions in that vicinity before returning to their respective posts.

"The conference has been very profitable," said Gerrit Fort, passenger traffic manager of the Union Pacific, last night. "The principal business of the meeting was the discussion of settlement and colonization of the states traversed by the roads represented. At today's session we discussed operating, freight, traffic and other routine matters which are important to the roads, but of little interest to the general public."

BOY STRUCK BY AUTO

Salt Lake, Sept. 17.—Philip Cederloft, 7 years of age, son of Ephraim Cederloft of 373 Tenth East street, was seriously injured when run down by an automobile driven by D. Bates of 816 East Eighth South street, at Ninth South and Fourth South streets shortly after 1 o'clock yesterday afternoon.

The boy was taken home by Mr. Bates in the automobile that struck him. Up to a late hour last night he had not regained consciousness and the extent of his injuries had not been determined by several physicians in attendance.

According to Patrolman Leon Mayhue, traffic policeman on Ninth East street, who made an investigation, Bates violated the traffic ordinance by going on the wrong side of the street to time the child was run over. The lamp and fender of the machine struck him, breaking his shoulder and inflicting a bad wound behind the left ear.

The mother of the boy is at present ill in a hospital with typhoid fever and it is feared that should word of the accident reach her the effect might be serious. Bates was taken to police headquarters by Patrolman Mayhue and will remain under police surveillance until the condition of the boy is less of a speculation.

PRODUCTION OF GOLD AND SILVER

Utah Ranks Second in the White Metal and Sixth as Producer of Gold.

Washington, Sept. 16.—The production of gold and silver by states during 1912 was:

State	(Gold value)	Silver (fine ounces)
Alabama	\$ 16,400	538,700
Alaska	17,198,600	3,446,500
Arizona	3,785,400	1,384,800
California	20,008,000	7,933,100
Colorado	18,741,200	200
Georgia	10,900	7,782,900
Idaho	1,041,700	1,800
Illinois	1,200	700
Maryland	1,200	543,500
Michigan	30,000	12,524,000
Missouri	3,707,900	13,851,400
Montana	13,575,700	1,460,800
New Mexico	574,600	2,300
North Carolina	156,000	54,000
Oregon	753,700	5,800
Philippine Is.	461,600	15,400
So. Carolina	15,400	205,800
So. Dakota	7,823,700	112,000
Texas	11,500	20,800
Tennessee	2,200	20,800
Utah	4,312,600	13,076,700
Virginia	300	700
Washington	682,600	350,800
Wyoming	24,300	300
TOTAL	\$93,451,400	63,766,800

HOME WORK TO BE GIVEN ITS CREDITS

Superintendent J. M. Mills of the city schools has put in effect his system whereby students who do work at home are given credit on the regular school books. The plan is to be tried out in the junior high schools first and it is probable that the system will not extend beyond those schools this year.

At the junior high schools, pupils who have been required to take six units of study may take five now, provided some work is done at home. Work done at home may consist of washing dishes, making beds, cleaning house, milking cows, chopping wood, delivering papers, studying music, pleasuring and gardening. When the pupils' report card is given on an O. K. by the parent, the subject taken at home will be placed to the boy or girl's credit on the school books.

BASKETBALL TO HAVE A LEAGUE

With the organizing of the Webster Academy Basketball association yesterday, active steps were taken to enter the Ogden school in the proposed league that will include the church schools of Ogden, Logan, Provo, Salt Lake, Ephraim and Beaver, Utah, and Ogden, Idaho. Efforts will be made to bring the championship series to this city. Principal W. W. Henderson was elected president of the association and Alva Hansen, secretary.

A ticket campaign has been inaugurated at the school. The plan of officers of the student body to sell one ticket now that will admit students to every social and athletic function given under the auspices of the school. By purchasing student activity tickets now, the treasury is assured of a reserve fund and the students will secure pleasures at reduced prices.

MONEY SPENT BY WOMEN FOR CLOTHES

Chicago, Sept. 16.—There are a few women in Chicago who spend \$75,000 in personal adornment, according to an estimate submitted at the semi-annual convention of the Chicago Dressmakers' club today. The dressmakers figured that the average factory girl spends \$3.54 a week for clothing.

These figures were arrived at by averaging the estimates made by the various delegates. The table reads:

A few \$75,000.
One hundred social leaders, \$50,000.
Ten thousand others, \$5,000.
Well dressed club women, \$1,500.
The suffragists, \$500.
The church worker, \$500.
The stenographer, \$275.
The shop girl, \$250.
The factory girl, \$200.

Mme. C. H. Fair, president of the club, declared that many working girls lose money because they don't know how to make their own clothing.

WRECK VICTIM STILL IN CRITICAL CONDITION

Salt Lake, Sept. 17.—E. M. Harris of Marysville, Idaho, father of Clifford Harris, who is in the L. D. S. hospital as a result of injuries suffered when the Yellowstone motor struck a buggy loaded with young folks near Ashton, Idaho, last Saturday morning, is in Salt Lake to look after the welfare of his son.

The condition of the young man is critical. He has not recovered consciousness since the accident. The father will remain here until the crisis is past. Miss Abbie Garret, Miss Claudia Daley, who were injured at the same time as young Harris, are also at the L. D. S. and are progressing slowly toward recovery.

BREWERS OBJECT TO LIQUOR ORDINANCE

Salt Lake, Sept. 17.—Protests against the new liquor ordinance now before the city for each 1000 population were laid before the commission today by the local brewery interests yesterday.

An informal session was held in the office of the mayor to discuss the ordinance, which was introduced last week and will come up Thursday for

"Learn One Thing Every Day"

No. 3. ALCAZAR AT SEVILLE

Copyright, 1913, by The Mentor Association, Inc.

Tranquilly amid its gardens that glow with roses and orange blossoms, the Alcazar of Seville, palace of the old Castilian kings, stands now as it stood in the days of the Moors. Here and there a ceiling, a doorway, or a colonnade, damaged by fire or earthquake, has been repaired according to architectural ideas of more modern times; but in the main those Moorish kings who built it could sleep, if they were there today, in their own rooms undisturbed by any feeling of strangeness.

The site on which the Alcazar was built is probably the oldest in Seville. The palace replaces an old Gothic castle which had been erected on the foundations of a Roman villa. Uncertain traditions and the imagination of historical writers have pictured the houses of shepherds on the same spot before history began. There are many stories about the Alcazar, both true and fabulous. The court of Maidens took its name from one of these. It was told how a tribute of a hundred maidens paid to the Mohammedan ruler had been lodged in that part of the Alcazar. History does not show that the calif ever asked for such a tribute, and it

is probable that the Court of Maidens had not been built at the time when this incident is supposed to have taken place. Nevertheless such a story has grown up, and given to the room a name that it will doubtless bear for all time.

After Castile had thrown off Moorish rule Seville was made the capital of Spain. For several centuries Christian kings lived in the Alcazar, adding somewhat to the original structure as the Moors had left it. The name of Pedro is more closely connected than any other Spanish ruler with the history and fiction of the building. He was called Pedro the Cruel. A grim sense of humor and a habit of going through the streets of Seville in disguise have made him the subject of many odd tales and rumors. Some of these stories are merely whimsical. He is said to have met four candidates for a judge's position beside a pool in the gardens where they had gone to find him. Pedro, turning to the first, asked him what was floating in the pool.

"An orange," replied the candidate without hesitation.

The second and third gave him the same answer.

The fourth fished out the piece of fruit with his staff, examined it, and replied more accurately, "Half an orange."

Pedro immediately gave him the appointment.

Every day a different human interest story will appear in the Standard. You can get a beautiful intaglio reproduction of the above picture, with five others, equally attractive, 7x9 1/2 inches in size, with this week's "Mentor." In "The Mentor" a well known authority covers the subject of the pictures and stories of the week. Readers of the Standard and the Mentor will know art, literature, history, science, and travel, and own exquisite pictures. On sale at Spargo's Book store.

a final vote. Beside the commissioners and the city attorney there were present Joseph Lippman, representing the Salt Lake Brewing company; W. P. Kiser of the Kiser Brewing company; and W. Fisher of the Fisher Brewing company. George Klenke, proprietor of a retail saloon, also was there.

As chief spokesman, Mr. Lippman declared that the effect of the ordinance would be to eliminate the saloons that handle local beers and surrender the business into the hands of the so-called high class saloons, which handle only eastern beers. The same complaints have been laid before the commission heretofore.

The brewery men were of the opinion that the question of the number of saloons should be left to the natural law of supply and demand, holding that the excessive license tax exacted by the city was ample regulation. Later they suggested that if a limit is to be placed on the number that some numerical as 500 or 600, rather than 1000, population be fixed.

The city attorney suggested that the license be raised from \$1500 to \$2000 a year and his idea was immediately objected to by Mr. Klenke, the only saloonman present, who declared the license to be a burden already.

BIG DITCH COMPLETED

Vernal, Sept. 16.—The big Colorado park irrigation ditch at Randlett, near here, has at last been completed, and the park presents a busy scene. Men and teams are at work on every claim plowing and building laterals. The Colorado park is admitted to be the finest piece of land in the entire Utah basin. Most of the settlers are from Colorado and the middle west.

Professors Stewart and Peterson of the Utah Agricultural college have been in the basin for some time studying alkali conditions. It is their opinion that to get rid of this soil pest the farmer will be forced to drain the land. The returned to Logan the later part of the week taking some samples of the soil with them.

MANY SEE FAIR

Blackfoot, Idaho, Sept. 16.—The first day's attendance at the south-eastern Idaho fair, now in progress, was most encouraging. The number and quality of exhibits indicate a keener and more widespread interest than has ever before existed. Tomorrow's program includes motor-cycle racing, steer bull-dogging contests, wild horse races, rope spinning contests, and Indian races. Indications point to a record-breaking attendance.

MANY ATTEND FAREWELL

Farmington, Sept. 16.—More than 300 persons attended the missionary farewell house held in the meeting house here Sunday evening, and which was in honor of six of Farmington's young men and women who will leave during the week for missions in different parts of the world. The Farmington City band was in attendance, and with a male quartette and vocal soloists, furnished music for the occasion. Short talks were made

for the occasion. Short talks were made by each of the departing missionaries, whose names and destinations follow.

N. G. Smith, Mrs. Smith and Miller Steed, to the South African mission; Misses Bertie and Edith Walsh, to the western states, and Charles Miller, Jr., to the northern states. Mr. Smith is going to preside over the African mission.

SPICE CAKE.

One cup granulated sugar, one-half cup butter, one-half cup milk, two cups flour, two and one-half eggs, one heaping teaspoon baking powder, one half teaspoon each of cinnamon and cloves, and a little nutmeg. Break eggs in batter after flour has been put in.

When you think of flour, think of—

CRESCENT FLOUR

The cream of the finest wheat grown in Utah and Idaho.

At all Grocers.

LEGAL

NOTICE TO CONTRACTORS.

Sealed proposals for building sewers in Sewer District No. 119, being Hudson avenue from 22nd to 24th streets, and Lincoln avenue from 19th to 20th streets, under plans and specifications prepared by the City Engineer and approved by the Board of City Commissioners, will be received at the office of the City Engineer in the City Hall at Ogden City, Utah, until 10 o'clock a. m., on the 6th day of October, 1913, at which time all proposals received will be publicly opened and read aloud.

Plans and specifications can be obtained upon application at the office of the City Engineer after September 23, 1913.

The right is reserved to reject any or all bids and to waive any defects. By order of the board of Commissioners.

H. J. CRAVEN, City Engineer.

First publication September 12, 1913. Last publication October 4, 1913.

NOTICE OF INTENTION.

Notice is hereby given by the Board of Commissioners of Ogden City, Utah, of the intention of said Board to make the following described improvements, to-wit:

To create Ballantyne avenue from 20th to 21st streets for a distance of 759.0 lineal feet, as a sewer district, and to construct therein a pipe sewer, together with the necessary manholes, to connect all with the manholes of the present sewer system, and to defray the whole of the cost thereof, estimated at \$900.00 by a local as-

essment on the lots or pieces of ground lying and being within the following district, being the district to be benefited or affected by said improvement, viz:

All the land lying between the outer boundary lines of said avenue and a line drawn 132 feet outward from and parallel to the said outer boundary lines. Said district to be assessed for the cost of putting in the sewer between 20th and 21st streets on Ballantyne avenue.

All protests and objections to the carrying out of such intention must be presented in writing to the city recorder on or before the 2nd day of October, 1913, at 10 o'clock a. m., that being the time set by said Board of Commissioners when they will hear and consider such objections as may be made thereto, at the mayor's office at the city hall, Ogden City, Utah.

By order of the board of commissioners of Ogden City, Utah.

Dated this 9th day of September, 1913.

H. J. CRAVEN, City Engineer.

First publication September 9, 1913. Last publication October 1, 1913.

NOTICE TO STOCKHOLDERS OF THE OREGON LUMBER COMPANY

Notice is hereby given that a stockholders' meeting of the Oregon Lumber company will be held at the Company's office, No. 154 24th street, Ogden City, Utah, on the 29th day of September, 1913, at 11 o'clock a. m., for the purpose of voting upon the adoption or rejection of the following proposed amendments to the Articles of Incorporation of the Company:

Amend Article IV of the Articles of Incorporation of this Company by striking out the same, and substituting in lieu thereof the following:

Article IV. The objects, pursuit, purpose and nature of the business of this Company is to conduct, pursue and carry on the business of owning and operating saw mills, flumes, shingle mills, planing mills and all kinds of wood working machinery; to own, operate, sell and dispose of lumber yards; to buy, sell and manufacture lumber, lath, shingles, sash, doors, boxes, and other products manufactured from lumber; to own, operate, manufacture, generate, store, transmit, buy, sell and distribute electrical current for heat, light and power; and to erect, buy, sell, lease and otherwise acquire, operate and maintain electric light, heating and power plants; to purchase, own, acquire, construct, sell and dispose of all kinds of real estate within or without the United States, either for the purpose of securing a supply of timber for the manufacture of lumber, or for the purpose of using such timber lands (when cleared) or other lands, for agricultural purposes of all kinds; to acquire, acquire, own, and use water of lakes and running streams for purposes of irrigation and supplying water for household and domestic consumption, watering livestock and for general irrigation purposes; to own, acquire, construct, operate and maintain irrigation systems or other water ways for the generation of electrical and other power, for general sale and distribution, and for the operation of its own mills, lighting, heating and power plants, and for the general distribution of water for sale and rental for irrigation, domestic and livestock purposes and for the purpose of irrigating the lands belonging to this Company and other individuals or concerns; and to dispose of any part or parts of such irrigation and power systems and water rights in such manner as the Board of Directors may from time to time determine; to buy, sell, lease, distribute or otherwise dispose of water and water rights for the generation of power, for light, heat, power, telephone lines or telegraph purposes and to acquire, buy, own and sell franchises and rights-of-way for any of the purposes herein mentioned to own, buy, sell, encumber, or otherwise acquire or dispose of stock in other corporations with the right to exercise such stock ownership in the same manner as private individuals, and to have the right to conduct its business, in any or all of its branches, in any or all of the states of the United States, or without the United States.

Said meeting is also to consider and act upon any and all matters which may properly come before it.

D. C. ECCLES, President.

HENRY H. ROLAPP, Secretary.

Ogden, Utah, August 19, 1913.

NOTICE OF INTENTION.

Notice is hereby given by the Board of Commissioners of Ogden City, Utah, of the intention of said Board to make the following described improvements, to-wit:

To create Hudson avenue, north from 29th street as far as Hudson avenue is now opened through block 10, S. O. S., as a sewer district, and to construct therein a pipe sewer together with the necessary manholes, to connect all with the manholes of the present sewer system, and to defray the whole of the cost thereof, estimated at \$700 by a local assessment on the lots or pieces of ground lying and being within the following district, being the district to be benefited or affected by said improvements, viz:

All the land lying between the outer boundary lines of said avenue and a line drawn 132 feet outward from and parallel to the said outer boundary lines. Said district to be assessed for the cost of putting in the sewer between 28th and 29th streets, also for securing the right of way for said sewer, from the north end of said Hudson avenue to 28th street.

All protests and objections to the carrying out of such intention must be presented in writing to the City Recorder on or before the 15th day of September, 1913, at 10 o'clock a. m., that being the time set by said Board of Commissioners when they will hear and consider such objections as may be made thereto, at the mayor's office at the City Hall, Ogden City, Utah.

By order of the Board of Commissioners of Ogden City, Utah.

Dated this 26th day of August, 1913.

H. J. CRAVEN, City Engineer.

First day of publication August 26, 1913.

Last day of publication September 17, 1913.

Test the Suds

Pick up a handful of suds—see how much richer, thicker and whiter they are when made with **JAMES PYLE'S PEARLINE**

See how much cleaner and fresher the clothes are, when PEARLINE is used—and how little rubbing is necessary to clean them.

PEARLINE contains more cleansing properties—more power to save work without risk of harm than you can imagine until you have tried it. There is only one PEARLINE—Pyles PEARLINE
